PREPARING FOR YOUR TRIP

Passports & Visas

Your passport must be valid for at least six months after your return home. It is your responsibility to ensure that your passport is valid and contains all required visas.

North American citizens will need visas to enter Vietnam and Cambodia. Passengers with a Cruise & Land itinerary must obtain a multiple entry visa for Vietnam (as there are two different points of entry into the country) and a single entry visa for Cambodia. Passengers with a Cruise Only itinerary require a single entry visa for both countries.

The visa for Vietnam should be obtained from your home country's Vietnamese Consulate prior to departure.

The visa for Cambodia can be obtained either prior to departure from your home country's Cambodian Consulate or upon arrival to Cambodia:

Cruise from Cambodia to Vietnam: The Cambodia visa can be purchased upon arrival at Siem Reap international airport for a fee. Please bring an extra passport photo and adequate cash in U.S. dollars, approximately \$40 at the time of printing.

Cruise from Vietnam to Cambodia: The Cambodia visa can be obtained onboard the AmaDara for a fee. Please bring an extra passport photo and adequate cash in U.S. dollars, approximately \$40 at the time of printing.

This option can be terminated by local authorities at any time without prior notice and AmaWaterways cannot be held responsible for the expense and issues guests would face should this event occur.

NOTE: The Cambodian government does not accept e-visas for visitors entering Cambodia from Vietnam by river cruise ship.

NOTE: The Vietnamese government does not accept e-visas for visitors entering Vietnam from Cambodia by river cruise ship.

Citizens of other countries should consult the appropriate consulates in their home country to determine if any visas are required.

We recommend that you photocopy certain pages of your passport (photo ID page and visa pages), as well as your airline tickets and driver's license and/or birth certificate. This will greatly expedite the replacement of any lost documents. Be sure to keep the originals separate from the copies. You can also scan these documents and email them to yourself as attachments. Please remember to fill out the "emergency next of kin" section in your passport (in pencil).

Travel Protection

If you purchased travel protection insurance, please make sure to write down important information such as the insurance company's telephone number and your policy number.

Baggage

Airlines have become very strict about the size and weight of baggage and carry-on luggage. Please check your airline's website to confirm specific allowances prior to your departure. Most airlines allow one piece of checked baggage and one carry-on per person. General guidelines:

- International air passengers: Each checked bag should measure less than 62 inches total (157 cm) and weigh less than 50 lbs. (22.7 kg).
- Cruise & Land program passengers: Checked bag(s) cannot exceed a total of 44 lbs. (20 kg), due to inter-Asia flight restrictions.
- All passengers: Your carry-on bag should not exceed 22"x 14"x 9" and must weigh less than 15 lbs. (7 kg).

NOTE: Airlines may impose fees for excess baggage and/or require you to remove articles and put them in another bag if weight/size limits are exceeded. AmaWaterways is not responsible for any additional fees imposed by airlines. Also, storage space may be limited on board your ship and/or motor coaches/tender boats, and porters may refuse to carry heavy, oversized suitcases. For these reasons, we recommend bringing only one suitcase and one carry-on bag per person.

It is a good idea to place your itinerary and contact information inside your checked bag, just in case it goes temporarily astray.

Mobile Phones

Please contact your service provider for information on overseas usage. Your phone will need to be set up for international roaming.

Health & Well-Being

All North American residents should consult the latest vaccine recommendations issued by the Centers for Disease Control (CDC). Visit www.cdc.gov or call 1-800-232-4636 (toll free in the U.S.). Residents of other countries should contact the appropriate government agency in their home country to determine what, if any, vaccinations are recommended.

Depending on your health history, your physician may also recommend malaria pills or certain booster shots, such as tetanus and/or Hepatitis A and B. Anti-diarrhea medicine may also be advised, in case you are sensitive to certain spices or unfamiliar ingredients commonly used in Southeast Asia.

You should be as fit and healthy as possible before starting on your journey, and have enough physical stamina to go on shore excursions and sightseeing tours.

Making the Most of Your Trip

Experienced travelers know how to be flexible. The more you can adapt to constantly changing conditions, the less stressed you'll be and the more you will enjoy your journey. This is especially true when traveling in third-world countries such as Vietnam and Cambodia. Being friendly and open-minded will make things more enjoyable for everyone. No matter where you go in the world, a warm smile is always welcome!

TRAVEL ESSENTIALS

What to Pack

It is always advisable to travel light in Southeast Asia, so "if in doubt, leave it out." Vietnam and Cambodia are tropical countries with hot and humid weather. Bring lightweight easy-care clothing that includes some long-sleeved items for protection from mosquitoes and sun, raingear, and sturdy and comfortable walking shoes that you won't mind getting wet or muddy. You might also pack a few smart casual items to wear at the Welcome and Farewell dinners.

Other recommended items:

- Shorts and/or long cotton pants
- T-shirts and long-sleeved cotton shirts
- Sweater, sweatshirt, or warm wrap for chilly nights
- Bathing suit, cover-up and flip flops
- Small flashlight
- Camera equipment and extra batteries/accessories
- Converter and electrical adapter (220v)
- Travel-sized deodorant, toothpaste, disinfectant wipes, insect repellent, etc.
- Prescription medications in original containers (to be packed in carry-on bag, not checked luggage)
- Small first aid kit with aspirin, antibacterial cream, etc.

- Feminine products and cosmetics
- Hat with brim, sunscreen, lip balm, sunglasses
- Money belt or other secure place to keep passport and cash
- Day pack large enough to hold camera, binoculars, etc.
- Photocopies of your passport and other important documents

Security Regulations

Current security regulations require that all liquid items in your carry-on bag be no larger than 3 oz. and contained in a clear quart-sized plastic bag.

Learn About Your Destination

It may be helpful to do some reading up on the locations you plan to visit. You might wish to learn a few key words and phrases too, especially if you plan to do any exploring on your own.

HEALTH CONSIDERATIONS

Physical Limitations

Our land programs and shore excursions in Vietnam and Cambodia require a moderate-to-challenging amount of walking. Streets, temple complexes, landing stages, and other sites may have steps and/or uneven terrain. The embarkation/disembarkation points between ship and shore may present a challenge to some passengers. Facilities and services for passengers with disabilities may sometimes be limited or non-existent. Guests requiring special assistance must be accompanied by a person who is physically able to provide such assistance.

In fairness to other guests, transfers and shore excursions adhere to a set schedule and cannot be delayed to accommodate those with physical limitations. AmaWaterways and its affiliates are not responsible for any denial of services by airline carriers, cruise vessels, hotels, motor coaches, local guides/operators or other independent suppliers.

Medical Care

There is no doctor or nurse aboard your cruise. Please consult your physician prior to traveling if you have a medical condition that might pose limitations during your trip. Any medical condition requiring special attention must be reported to AmaWaterways at the time of booking.

Handicapped Facilities

Your ship is not equipped with handicapped facilities such as ramps or elevators, and hallways and doorways may not be wide enough to accommodate wheelchairs or scooters. Motor coaches, boats, and minibuses used for transfers and shore excursions also may not be handicapped accessible.

Special Diets

Please let us know prior to your departure if you have any special dietary requirements (e.g. vegan, diabetic, gluten-free, etc). We will make every effort to accommodate your requests, with the resources available to us.

Drinking Water

We recommend using bottled water for drinking and brushing your teeth when you travel to southeast Asia. A supply will be readily available onboard during your trip. If you have a meal in town on your own, ask that bottled drinks be opened at the table (to ensure purity) and refuse ice cubes. Drink often to avoid dehydration, too.

Street Food

Please be cautious when sampling any food purchased from street vendors, as hygiene standards may be sub-par. It's best to avoid dairy products, salads, and any food that is uncooked or fruit that you have not peeled yourself.

MONEY MATTERS

Currency

Vietnam: Dong (VND)

Cambodia: Riel (KHR) and U.S. dollars (commonly used)

We suggest bringing some U.S. dollars in small denominations. Travelers checks are generally not accepted anywhere in Southeast Asia.

ATM (Automated Teller Machine) and Credit Cards

ATMs are available in major cities throughout Vietnam and Cambodia, and the machines in Cambodia dispense U.S dollars. Your ship does not have an ATM on board. Prior to travel, be sure to ask your bank about any applicable overseas transaction fees and/or restrictions.

Major credit cards (Visa, Master Card, American Express) are accepted in the major cities on your itinerary. Note that some shops and restaurants may require a minimum charge. Be sure to bring two credit cards, as some places may accept one type but not another. Before traveling, make sure your credit cards are activated and valid for at least 30 days after you return home. It's a good idea to let your credit card company know you may be using your card overseas, and to inquire about any transaction fees and/or restrictions.

TRAVEL ARRANGEMENTS

Airport Security and Check-in

Please arrive at least three hours before international flights and at least two hours before domestic flights. This will allow ample time to check-in and get through Customs and TSA security check points.

In-Flight Comfort

- Wear loose-fitting clothing and comfortable shoes.
- Avoid caffeine, alcohol and carbonated drinks; drink plenty of water; and eat lightly.
- Ease pressure in ears by chewing gum, yawning, swallowing or gently blowing your nose.
- Walk up and down the aisle to stretch your limbs and get blood circulating.
- Do a few isometric exercises while seated.
- If you are due to arrive in Asia in the a.m., try to sleep during your flight so you can stay up until evening.
- Avoid wearing contact lenses during your flight, as re-circulated air tends to dry them out.

Delayed Baggage

Baggage can sometimes be delayed during air transport. Pack a change of clothing in your carry-on bag or your traveling companion's bag just in case. Place a copy of the hotel and ship contact info inside each piece of checked luggage, as this will help the airline locate you should your bags be delayed. Please note that it is the responsibility of the airline to deliver any delayed bags to you. Claims for reimbursement for delayed luggage should be submitted directly to the airline. Fill out a claim form at the appropriate airline desk before leaving the airport.

SHORE EXCURSIONS

Daily Activities

The ship's Daily Program contains updated information about each day's scheduled activities, shore excursions, tour departure times and more. It is available at the reception desk.

A sightseeing tour is included at each location on your itinerary. These tours can involve walking and/or travel by motor coach or a small boat. Each tour is led by a qualified English-speaking Cruise Guide. Note that scheduled activities and tours are always subject to change, particularly in the event of low water levels or inclement weather.

Religious Site Visits

When visiting religious sites, we kindly ask guests to be respectful of the local culture and its customs. Shoulders and knees should be covered, and some sites may require you to remove your shoes upon entry. Shoes that can be easily slipped on and off are useful during these excursions.

Village Visits

You will not encounter many begging children on your trip. Please help keep it this way by not giving any money to children. A better alternative would be something from a faraway place, e.g., postcards, small notepads or other school supplies, small personal hygiene products, etc. These items should not be given to any individual child or family - instead, ask your Cruise Guide to give them to a village elder or the local school.

Safety Tip

As in many touristic destinations, pick-pocketing is something to remain vigilant of while traveling worldwide. It is not advisable to have passports or other valuables (i.e. jewelry, money) on your person during excursions. Whenever possible, valuables should be kept in the safe available in your hotel room or stateroom. Stay alert while venturing out on your own or in the evening, especially if traveling solo.

FOOD & DRINK

All meals onboard are included in the brochure price and are served in the dining room in a single seating. Open seating allows you to sit wherever you wish and to meet fellow passengers. Table reservations are not accepted.

Meals are prepared by our executive chefs and offer a choice of Western or Asian cuisine. Breakfast and lunch are served buffet style, and dinner is a multi-course meal with a selection of entrées.

Complimentary bottled water, soft drinks, juices, house brand spirits, local beers, coffee and tea are available at anytime throughout the cruise. These beverages are also available during meals along with unlimited fine wine. Premium wine and brand name liquor are also available for purchase.

SAFETY PRECAUTIONS

Embarkation & Disembarkation Points

There are very few proper embarkation/disembarkation points along the Mekong River. You may need to embark or disembark via a narrow gangway or a local tender boat, or occasionally cross a dirt- or grass-covered surface to reach the ship. Our helpful and friendly staff will always be on hand to assist you.

Motor Coaches and Tender Boats

To avoid injury, please remain seated whenever riding in a motor coach or small boat. Day packs and other personal items should be stowed in the overhead racks or under your seat to keep the aisles clear. Heavy or fragile items should never be stored overhead. Do not leave any valuables behind during sightseeing tours. Please watch your step when exiting any vehicle or tender boat and always check for oncoming traffic. All guests must wear lifejackets anytime they are in a tender boat. AmaWaterways reserves the right to prevent any guest refusing to comply with this requirement from participating in the scheduled excursion.

Moving About On Board

Please exercise caution when moving around the ship, especially when it is in transit and/or when you are navigating wooden stairs and floors.

AMAWATERWAYS SCHOOL PROJECT IN CAMBODIA

AmaWaterways is very proud to provide financial support to the ODA Free Village English School in the Siem Reap province of Cambodia. This school helps local children improve their English language skills and broaden their future employment opportunities. Surrounded by the famous temples of Angkor, residents of the area rely primarily on tourism. Guests touring the Angkor Archeological Park as part of their Cruise & Land itinerary will have a chance to visit this school during an excursion to the nearby Banteay Srei temple. Many of our guests are profoundly touched by the friendliness of the local children and wish to contribute something to their education. If you wish to bring some items from home to donate to the school, here are a few suggestions: Very simple story books with lots of pictures, UNO cards, wooden jigsaw puzzles, pencils with erasers, jumbo felt tip pens, dry erase markers, highlighters, Post-It notes, small notebooks, building blocks, toothbrushes, and small tubes of toothpaste, soap and shampoo.

DOCKING LOCATIONS

Please note that in various ports the docking process may involve narrow walkways, local tender boats or dirt-covered paths. There may be times when multiple ships are tied together and views from your stateroom are temporarily restricted. These are typical situations beyond the control of AmaWaterways.

DID YOU KNOW....?

- One of the world's most beautiful rivers, the Mekong is only river that changes direction twice a year. River cruise conditions also change with the seasons - the water level can rise significantly within just a few hours during the rainy Monsoon season and quickly drop during the dry season. The water level is often lower January-August and higher around September.
- The Mekong is a major trading route linking China's southwestern province of Yunnan to Laos, Burma (Myanmar) and Thailand, Vietnam and Cambodia.
- The Mekong is the world's 12th-longest river at 2,600 miles. It is the largest river in Southeast Asia.
- The earliest known civilization along the Mekong dates to the 1st century A.D. The first European to explore the river was Portugal's Antonio de Faria, in 1540.
- In 2009, 145 new species were identified in the Mekong region, including two new bird species, five mammals, 96 plants, six new amphibians, and 29 fish species previously unknown to science.
- The name Mekong derives from Mae Nam in the Thai language, meaning "Mother of Water."
- The Mekong has more large fish than any other river, including the Mekong giant catfish, which can weigh up to 660 lbs. and grows to be almost 10 feet."
- Glowing spheres of light are observable from time to time rising from the water's surface in certain parts of the river. These are sometimes referred to as "Naga fireballs" or "Mekong lights." The locals attribute the phenomenon to Phaya Naga, or "Mekong Dragons."
